DATA IS ON THE MOVE. CAN SECURITY KEEP UP?

Employees need to share data to stay productive, but could expose data to threats. Accessible, seamless security solutions should encourage efficiency, not inhibit it. Learn more about Dell and Intel® solutions to make your systems more secure at DellEMC.com/datasecurity.

41% of workers may bypass their company's security policies.

57% say it's the most efficient way to get work done.

43% send work-related emails from their personal account.

71% share files with third parties daily or weekly.

*Statistics based on a study conducted by Forrester Consulting commissioned by Dell, "Evolving Security to Accommodate the Modern Worker," October 2017.
